3. The workshop has improved my understanding						5
4. I will try some of the ideas						5
5. Overall, I am satisfied with this workshop						5

The child workshops we ran at the same event had a more basic review form – but we got lots of smileys!

In response to ‘what did you like or enjoy about the session’ when we presented QWERTY® online (Potential Plus vPlus sessions), here are some of the comments that were shared with us afterwards:

“It was very creative and helpful”

“the design of qwerty and its meaning”

“the session was great. Thanks :)”

“how free you are to choose the ideas”

“the ideas”

“qwerty concept, creation of sample playground”

“very practical examples provided to apply the concept”

“Great idea for sure. Absolutely see the point of teaching project management style techniques to children and agree this is a skill that will be extremely helpful for the future.”

For the Potential Plus vPlus online courses, we ran QWERTY® sessions more than once (not the same session, but using the technique) and were very pleased to have repeat customers (some even rescheduling other events in order to participate).
